

# THE AIR ENGINE THAT GOT AIR ENGINES COVERED UP

## CONTENTS

1. Heat-power engineering of air engines; Tesla on solar air engine; other inventors using ambient heat as power source ..... 1
2. Charles B. Hodges' patents for the compound air engine ..... 22
3. The heat pump concept (explains overunity); loss of ozone; no-freon refrigerator..... 51

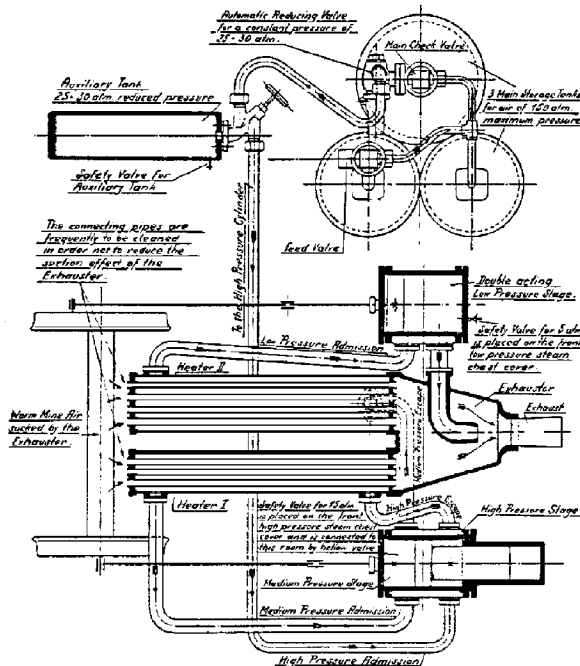

FIG. 3.—EXPLANATORY DIAGRAM OF TRIPLE-EXPANSION COMPRESSED-AIR LOCOMOTIVE WITH DOUBLE INTERMEDIATE HEATING.

THE DRAWING ABOVE REPRESENTS THE MOST EFFICIENT AIR ENGINE EVER BUILT, BASED ON PATENTS REPRODUCED IN THIS BOOK
