

HYBRID AND CLOSED CYCLE PNEUMATIC POWER PLANTS

CONTENTS

PART ONE: HYBRID PNEUMATIC POWER PLANTS

| | | |
|-----|--|----|
| 1. | The Arnold Electro-Pneumatic Railway, 1904..... | 1 |
| 2. | Miscellaneous Patent Abstracts..... | 6 |
| 3. | German State Railways Diesel-Compressed Air Locomotive, 1930..... | 9 |
| 4. | Burt Air Drive Hybrid/Closed Cycle Air Car, 1932..... | 13 |
| 5. | Frank Perry's Air Car..... | 20 |
| 6. | Theodore Zotto, "Power System" Patent, 1971..... | 22 |
| 7. | Maruyama's "Electropneumatic Propelling System for Vehicles" Patent, 1972..... | 27 |
| 8. | Letters to Engineering Journals, 1976 & 1983..... | 37 |
| 9. | Manganaro's "Fluid Pressure System for Operating a Vehicle Drive," 1968..... | 38 |
| 10. | Kim's "Low Polluting Engine and Drive System" Patent, 1970..... | 41 |
| 11. | Wagner's "Compressed Air Engine" Patent, 1978..... | 48 |
| 12. | A. E. Chodzko Quote on Over-unity Pneumatics, 1899..... | 56 |

PART TWO: CLOSED CYCLE PNEUMATIC POWER PLANTS

| | | |
|-----|---|-----|
| 13. | Articles on the Return Air Pneumatic System, Engineering Journals, 1898-1927..... | 57 |
| 14. | Horsepower Required to Compress Air (Standard Chart)..... | 78 |
| 15. | Cummings' "Transmitting Power by Means of Compressed Air," 1891..... | 79 |
| 16. | Wilkinson's "Air Compression and Utilizing Device" Patent, 1904..... | 97 |
| 17. | Wilkinson's "Compressing and Distributing Air Under Pressure," 1912..... | 100 |
| 18. | Bruckner's "Power Transmitting Mechanism" Patent, 1931..... | 107 |
| 19. | Otis' "Fluid Transmission" Patent, 1936..... | 119 |
| 20. | Rossmann's "Pneumatic Power Unit" Patent, 1949..... | 124 |
| 21. | Taga's "Pneumatic Power Transmission System" Patent, 1961..... | 162 |
| 22. | Manor's "Compressed Air Powered Motor Vehicle" Patent, 1999..... | 169 |
